**of Correction**

Dear Sir/Madam:

It is respectfully requested that the USPTO correct the claim of priority on the cover sheet of the patent. The claim of priority is (a) Israel 147009, filed on December 10, 2001; (b) Israel 150094, filed on June 6, 2002; and (c) International application PCT/IL02/00635, filed on August 2, 2002.

This request is being made because it recently came to our attention that the international application number was erroneous due to a typographical error. There was no error in the filing date of the international application. In addition, it should be noted that all the references cited in the correct international application (or its U.S. equivalents) were submitted to the USPTO through numerous IDS documents. As such there is no (a) new matter, (b) defective specification or drawing, or (c) assertion by the patentee to claim more or less than he had a right to claim in the patent. As such, this certificate of correction with the appropriate fee should be granted pursuant to 35 U.S.C. 255.

**35 U.S.C. 255 Certificate of correction of applicant's mistake.** Whenever a mistake of a clerical or typographical nature, or of minor character, which was not the fault of the Patent and Trademark Office, appears in a patent and a showing has been made that such mistake occurred in good faith, the Director may, upon payment of the required fee, issue a certificate of correction, if the correction does not involve such changes in the patent as would constitute new matter or would require reexamination. Such patent, together with the certificate, shall have the same effect and operation in law on the trial of actions for causes thereafter arising as if the same had been originally issued in such corrected form.

We also enclose a copy of PTO form 1050, and form 2038 for \$100 (per CFR 1.20(a)).

Respectfully submitted
